## FACTORY FIELD SERVICE

As quality standards increase, so does the need for high performance Sanitary Process Instrumentation. Anderson-Negele, a leading manufacturer of Sanitary Process Instrumentation, offers Field Service performed by our own factory trained and supported technicians.

### FLOW

Sanitary Flow Metering is a critical measurement in any process, and most quality assurance programs require third party verification of instrument calibration on an annual basis. The Anderson-Negele Field Service Technicians are Sanitary Flow specialists and carry both NIST traceable positive displacement volumetric and Coriolis mass master meters. Your meter will be flow tested for accuracy while in your application to provide realistic results with minimal interruption to your process. Thorough calibration records will document the results.

Product Receiving and Load-Out for legal custody transfer, or verification is another area where Anderson-Negele specializes with our line of sanitary flowmeters. Our technicians will transport a sanitary NIST traceable prover to your facility and provide either acceptance or maintenance testing, according to Handbook 44, in cooperation with the local Weights and Measures official to certify the system for legal custody transfer.

# Factory Field Service

**LEVEL**

Anderson-Negele technicians can install, service, and calibrate existing Anderson-Negele Tank Level Monitoring Systems and Sensors, or “wet calibrate” your tanks and create custom volumetric profiles for use with PLC integrated level gauging.

Anderson-Negele technicians are available to perform plant site surveys where they gather all required information to specify new or replacement instrumentation, or to conduct on-site product training with plant personnel.

## **2017 US SERVICE RATES:**

In-Plant & Administrative Time: (Mon. – Fri., 7am – 6 pm)	\$155 / hr
Travel Time:	\$120 / hr
NIST Master Meter Rental:	\$120 / day
NIST Certified Prover Rental:	\$200 / day
Expenses as Incurred	
Mileage:	\$0.95 / mi
Prover Freight:	Based on location

Night and weekend work is quoted on a case-by-case basis.

Travel and Expenses will be pro-rated whenever possible.

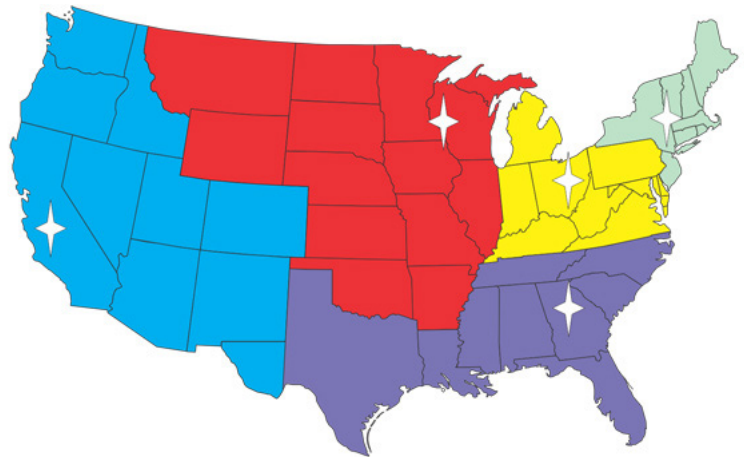

Contact your Regional Technician or your local Anderson-Negele Distributor to schedule a service appointment.

**TEMPERATURE & PRESSURE**

Anderson-Negele manufactures a broad line of analog and electronic temperature and pressure sensors. Ask your technician if you would like any of these instruments serviced during your plant service visit.

## **2017 US SERVICE REGIONS**

### **West Coast Region:**

Mark McKinney 559-331-5285

### **Northeast Region:**

Tim Burns 518-859-7171

### **Southeast & Southwest Region:**

Lance Hayduk 678-799-5315

### **Mid-Atlantic Region:**

Tom Berher 614-599-2561

### **Midwest Region:**

Allen Mallory 715-937-6881
